

alcatel 3T10

For more information on how to use the phone, please go to www.alcatelmobile.com and download the complete user manual. Moreover, on the website, you can also find answers to frequently asked questions, upgrade the software via Mobile Upgrade, and so much more.

Note:

This is a user manual for alcatel 3T10 8094X/8094T.

Help

Refer to the following resources to get more FAQ, software, and service information.

Consulting FAQ

Go to

<https://www.alcatelmobile.com/support/>

Updating your tablet's software

Update through the **System Update** menu on your device.

To download the software update tool onto your PC, go to

<https://www.alcatelmobile.com/support/software-drivers/>

Finding your serial number or IMEI

You can find your serial number or International Mobile Equipment Identity (IMEI) on the packaging materials. Or, on the tablet, choose **Settings > About tablet > Status**

Obtaining warranty service

First follow the advice in this guide. Then check hotlines and repair centres information through

<https://www.alcatelmobile.com/contact-us/>

Viewing legal information

On the tablet, go to **Settings > System > About tablet > Legal information**.

Using ONETOUCH Cloud

Open User Centre, then touch **More info**. For an online User Centre tutorial (may not be available in all areas), go to

<https://www.alcatelmobile.com/support/faq/>

Using other alcatel apps

Go to

<https://www.alcatelmobile.com/support/app-services/>

This product meets applicable national SAR limits of 2.0 W/kg. The specific maximum SAR values can be found on page 16 of this user guide.

www.sar-tick.com

When carrying the product or using it while worn on your body, either use an approved accessory such as a holster or otherwise maintain a distance of 0 mm from the body to ensure compliance with RF exposure requirements. Note that the product may be transmitting even if you are not making a phone call.

PROTECT YOUR HEARING

To prevent possible hearing damage, do not listen at high volume levels for long periods. Exercise caution when holding your device near your ear while the loudspeaker is in use.

Safety and use

We recommend that you read this chapter carefully before using your tablet. The manufacturer disclaims any liability for damage, which may result as a consequence of improper use or use contrary to the instructions contained herein.

• TRAFFIC SAFETY:

Given that studies show that using a tablet while driving a vehicle constitutes a real risk, even when the hands-free kit is used (car kit, headset...), drivers are requested to refrain from using their tablet when the vehicle is not parked.

When driving, do not use your tablet and headset to listen to music or to the radio. Using a headset can be dangerous and forbidden in some areas.

When switched on, your tablet emits electromagnetic waves that can interfere with the vehicle's electronic systems such as ABS anti-lock brakes or airbags. To ensure that there is no problem:

- Do not place your tablet on top of the dashboard or within an airbag deployment area;
- Check with your car dealer or the car manufacturer to make sure that the dashboard is adequately shielded from tablet RF energy.

● CONDITIONS OF USE:

You are advised to switch off the tablet from time to time to optimise its performance.

Switch the tablet off before boarding an aircraft.

Switch the tablet off when you are in health care facilities, except in designated areas. As with many other types of equipment now in regular use, tablets can interfere with other electrical or electronic devices, or equipment using radio frequency.

Switch the tablet off when you are near gas or flammable liquids. Strictly obey all signs and instructions posted in a fuel depot, petrol station, or chemical plant, or in any potentially explosive atmosphere.

When the tablet is switched on, it should be kept at least 15 cm from any medical device such as a pacemaker, a hearing aid, or an insulin pump, etc.. In particular when using the tablet, you should hold it against the ear on the opposite side to the device, if any.

To avoid hearing impairment, pick up the call before holding your tablet to your ear. Also move the tablet away from your ear while using the "hands-free" mode because the amplified volume might cause hearing damage.

Do not let children use the tablet and/or play with the tablet and accessories without supervision.

If your tablet has a removable cover, note that your

tablet may contain substances that could create an allergic reaction.

If your tablet is a unibody device, the back cover and battery are not removable. If you disassemble your tablet the warranty will not apply. Disassembling the tablet may damage the battery, and may cause leakage of substances that could create an allergic reaction.

Always handle your tablet with care and keep it in a clean and dust-free place.

Do not allow your tablet to be exposed to adverse weather or environmental conditions (moisture, humidity, rain, infiltration of liquids, dust, sea air, etc.). The manufacturer's recommended operating temperature range is -10°C (14°F) to +40°C (104°F).

At over 40°C (104°F) the legibility of the tablet's display may be impaired, though this is temporary and not serious.

Do not open, dismantle, or attempt to repair your tablet yourself.

Do not drop, throw, or bend your tablet.

Do not use the tablet if the glass screen is damaged, cracked, or broken to avoid any injury.

Do not paint it.

Use only batteries, battery chargers, and accessories which are recommended by TCL Communication Ltd. and its affiliates and are compatible with your tablet

model. TCL Communication Ltd. and its affiliates disclaim any liability for damage caused by the use of other chargers or batteries.

Remember to make backup copies or keep a written record of all important information stored on your tablet.

Some people may suffer epileptic seizures or blackouts when exposed to flashing lights, or when playing video games. These seizures or blackouts may occur even if a person never had a previous seizure or blackout. If you have experienced seizures or blackouts, or if you have a family history of such occurrences, please consult your doctor before playing video games on your tablet or enabling a flashing-lights feature on your tablet.

Parents should monitor their children's use of video games or other features that incorporate flashing lights on the tablets. All persons should discontinue use and consult a doctor if any of the following symptoms occur: convulsion, eye or muscle twitching, loss of awareness, involuntary movements, or

disorientation. To limit the likelihood of such symptoms, please take the following safety precautions:

- Do not play or use a flashing-lights feature if you are tired or need sleep;
- Take a minimum of a 15-minute break hourly;
- Play in a room in which all lights are on;

- Play at the farthest distance possible from the screen;
- If your hands, wrists, or arms become tired or sore while playing, stop and rest for several hours before playing again;
- If you continue to have sore hands, wrists, or arms during or after playing, stop the game and see a doctor.

When you play games on your tablet, you may experience occasional discomfort in your hands, arms, shoulders, neck, or other parts of your body. Follow the instructions to avoid problems such as tendinitis, carpal tunnel syndrome, or other musculoskeletal disorders.

● **PRIVACY:**

Please note that you must respect the laws and regulations in force in your jurisdiction or other jurisdiction(s) where you will use your tablet regarding taking photographs and recording sounds with your tablet. Pursuant to such laws and regulations, it may be strictly forbidden to take photographs and/or to record the voices of other people or any of their personal attributes, and reproduce or distribute them, as this may be considered to be an invasion of privacy. It is the user's sole responsibility to ensure that prior authorisation has been obtained, if necessary, in order to record private or confidential conversations or take a photograph of another person; the manufacturer, the seller or vendor of your tablet (including the operator)

disclaim any liability which may result from improper use of the tablet.

● BATTERY:

Following air regulation, the battery of your product is not charged. Please charge it first.

For a non-unibody device:

Observe the following precautions:

- Do not attempt to open the battery (due to the risk of toxic fumes and burns);
- Do not puncture, disassemble, or cause a short circuit in a battery;
- Do not burn or dispose of a used battery in household rubbish or store it at temperatures above 60°C (140°F).

Batteries must be disposed of in accordance with locally applicable environmental regulations. Only use the battery for the purpose for which it was designed. Never use damaged batteries or those not recommended by TCL Communication Ltd. and/or its affiliates.

For a non-unibody device with a non-removable battery:

Observe the following precautions:

- Do not attempt to eject, replace or open the battery;
- Do not puncture, disassemble, or cause a short circuit

in the battery;

- Do not burn or dispose of your tablet in household rubbish or store it at temperature above 60°C (140°F).

Tablet and battery must be disposed of in accordance with locally applicable environmental regulations.

For a unibody device:

Observe the following precautions:

- Do not attempt to open the back cover;
- Do not attempt to eject, replace, or open battery;
- Do not puncture the back cover of your tablet;
- Do not burn or dispose of your tablet in household rubbish or store it at temperature above 60°C (140°F).

Tablet and battery as a unibody device must be disposed of in accordance with locally applicable environmental regulations.

This symbol on your tablet, the battery, and the accessories means that these products must be taken to collection points at the end of their life:

- Municipal waste disposal centres with specific bins for these items of equipment;
- Collection bins at points of sale.

They will then be recycled, preventing substances being disposed of in the environment, so that their components can be reused.

In European Union countries:

These collection points are accessible free of charge.

All products with this sign must be brought to these collection points.

In non-European Union jurisdictions:

Items of equipment with this symbol are not to be thrown into ordinary bins if your jurisdiction or your region has suitable recycling and collection facilities; instead they are to be taken to collection points for them to be recycled.

CAUTION: RISK OF EXPLOSION IF BATTERY IS REPLACED BY AN INCORRECT TYPE. DISPOSE OF USED BATTERIES ACCORDING TO THE INSTRUCTIONS.

● CHARGERS:

Mains powered chargers will operate within the temperature range of: 0°C (32°F) to 40°C (104°F).

The chargers designed for your device meet the standard for safety of information technology equipment and office equipment use. They are also compliant with the ecodesign directive 2009/125/EC. Due to different applicable electrical specifications, a charger you purchased in one jurisdiction may not work in another jurisdiction. They should be used for this purpose only.

This device is compatible with the charger, which complies with the following standards relating to the Common Mobile Device Charger:

- EN301 489-34 V2.1.1 Final Draft (2017-04)

- EN 62684:2018

Manufacturer's name and Address:

TCL Communication Ltd., 5/F Building 22E, 22 Science Park East Avenue, Hong Kong Science Park, Shatin, NT, Hong Kong

Model: UC13

Input Voltage: 100~240V

Input AC Frequency: 50/60Hz

Output Voltage: 5.0V

Output Current: 2.0A

Output Power: 10.0W

Average active efficiency: 79.0%

No-load power consumption: 0.08W

Radio waves

Proof of compliance with international standards (ICNIRP) or with European Directive 2014/53/EU (RED) is required of all tablet models before they can be put on the market. The protection of the health and safety for the user and any other person is an essential requirement of these standards or this directive.

THIS DEVICE MEETS INTERNATIONAL GUIDELINES FOR EXPOSURE TO RADIO WAVES.

Your tablet is a radio transmitter and receiver. It is designed not to exceed the limits for exposure to radio waves (radio frequency electromagnetic fields) recommended by international guidelines. The guidelines were developed by an independent scientific organisation (ICNIRP) and include a substantial safety margin designed to assure the safety of all persons, regardless of age and health.

The radio wave exposure guidelines use a unit of measurement known as the Specific Absorption Rate, or SAR. The SAR limit for devices is 2 W/kg.

Tests for SAR are conducted using standard operating positions with the device transmitting at its highest certified power level in all tested frequency bands. The highest SAR values under the ICNIRP guidelines for this device model are:

8094X:

Maximum SAR for this model and conditions under which it was recorded			
Body-worn SAR (0mm)		UMTS 2100 + Wi-Fi 2.4G	1.55 W/kg
Limb SAR (0mm)		LTE Band 3 + Wi-Fi 2.4G	2.90 W/kg

8094T:

Maximum SAR for this model and conditions under which it was recorded			
Body-worn SAR (0mm)		GSM 900 + Wi-Fi 2.4G	1.68 W/kg
Limb SAR (0mm)		LTE Band 3 + Wi-Fi 2.4G	2.90 W/kg

During use, the actual SAR values for this tablet are usually well below the values stated above. This is because, for purposes of system efficiency and to minimise interference on the network, the operating power of your tablet is automatically decreased when full power is not needed for the call. The lower the power output of the tablet, the lower its SAR value.

Body-worn SAR testing has been carried out at a separation distance of 0 mm. To meet RF exposure guidelines during body-worn operation, the tablet should be positioned at least this distance away from the body.

If you are not using an approved accessory ensure that whatever product is used is free of any metal and that

it positions the tablet the indicated distance away from the body.

Organisations such as the World Health Organisation and the US Food and Drug Administration have stated that if people are concerned and want to reduce their exposure they could use a hands-free device to keep the tablet away from the head and body during phone calls, or reduce the amount of time spent on the tablet.

For more information, you can go to www.alcatelmobile.com.

Additional information about electromagnetic fields and public health are available on the following site: <http://www.who.int/peh-emf>.

Your tablet is equipped with a built-in antenna. For optimal operation, you should avoid touching it or degrading it.

As devices offer a range of functions, they can be used in positions other than against your ear. In such circumstances the tablet will be compliant with the guidelines when used with a headset or USB data cable. If you are using another accessory ensure that whatever product is used is free of any metal and that it positions the tablet at least 5 mm away from the body.

Please note by using the device some of your personal data may be shared with the main device. It is under your own responsibility to protect your own personal data, not to share with it with any unauthorised devices

or third party devices connected to yours. For products with Wi-Fi features, only connect to trusted Wi-Fi networks. Also when using your product as a hotspot (where available), ensure your network security. These precautions will help prevent unauthorised access to your tablet. Your product can store personal information in various locations including a SIM card, memory card, and built-in memory. Be sure to remove or clear all personal information before you recycle, return, or give away your product. Choose your apps and updates carefully, and install from trusted sources only. Some apps can impact your product's performance and/or have access to private information including account details, call data, location details, and network resources.

Note that any data shared with TCL Communication Ltd. is stored in accordance with applicable data protection legislation. For these purposes TCL Communication Ltd. implements and maintains appropriate technical and organisational measures to protect all personal data, for example, against unauthorised or unlawful processing and accidental loss or destruction of or damage to such personal data whereby the measures shall provide a level of security that is appropriate having regard to

- The technical possibilities available;
- The costs for implementing the measures;
- The risks involved with the processing of the personal data, and;

- The sensitivity of the personal data processed.

You can access, review, and edit your personal information at any time by logging into your user account, visiting your user profile or by contacting us directly. Should you require us to edit or delete your personal data, we may ask you to provide us with evidence of your identity before we can act on your request.

We will provide you with a complete copy of the corresponding source codes upon request within a period of three years from the distribution of the product by TCL Communication Ltd.

You may download the source codes from <http://sourceforge.net/projects/alcatel/files/>. The provision of the source code is free of charge from the internet.

We hereby point out that the end user warranty for infringement IPR is solely limited to the EU/EEA/Switzerland.

If and to the extent that the Product is exported, taken with, or used by end customer or end user outside the EU/EEA/Switzerland any responsibility, warranty or indemnification of manufacturer and its suppliers in regard to the Product expires (including any indemnification in regard to infringement IPR).

⁽¹⁾ May not be available in all countries.

General information.....

- **Internet address:** www.alcatelmobile.com
- **Hotline:** See the "SERVICES" leaflet that came with your tablet or go to our website.
- **Manufacturer:** TCL Communication Ltd.
- **Address:** 5/F, Building 22E, 22 Science Park East Avenue, Hong Kong Science Park, Shatin, NT, Hong Kong
- **Electronic labeling path:** Touch **Settings > System > Advanced > Regulatory & safety** or press *#07#, you can find more information about labelling ⁽¹⁾.

On our website, you will find our FAQ (Frequently Asked Questions) section. You can also contact us by email to ask any questions you may have.

This radio equipment operates with the following frequency bands and maximum radio-frequency power:

GSM 900: 33.5 dBm

GSM 1800: 30.5 dBm

UMTS B1/8 (2100/900): 24 dBm

LTE FDD B1/3/7 (2100/1800/2600): 24 dBm

LTE FDD B8/20/28 (900/800/700): 24.5 dBm

⁽¹⁾ It depends on countries.

LTE TDD B38/40 (2600/2300): 24 dBm

Bluetooth 2.4GHz band: 9.99 dBm

Bluetooth LE: -1.99 dBm

802.11 b/g/n 2.4GHz band: 18.99 dBm

802.11 a/n/ac 5.0GHz band: 16.35 dBm

- **Regulatory information**

Hereby, TCL Communication Ltd. declares that the radio equipment type **Alcatel 8094X/8094T** is in compliance with Directive 2014/53/EU.

The full text of the EU declaration of conformity is available at the following internet address: http://www.alcatelmobile.com/EU_doc.

- **Additional information**

The description of accessories and components, including software, which allow the radio equipment to operate as intended, can be obtained in the full text of the EU declaration of conformity at the following internet address: http://www.alcatelmobile.com/EU_doc.

Protection against theft ⁽¹⁾

Your tablet is identified by an IMEI (tablet serial number) shown on the packaging label and in the tablet's memory. We recommend that you note the number the

⁽¹⁾ Contact your network operator to check service availability.

first time you use your tablet by entering *#06# and keep it in a safe place. It may be requested by the police or your operator if your tablet is stolen. This number allows your tablet to be blocked preventing a third person from using it, even with a different SIM card.

Disclaimer

There may be certain differences between the user manual description and the tablet's operation, depending on the software release of your tablet or specific operator services.

TCL Communication Ltd. shall not be held legally responsible for such differences, if any, nor for their potential consequences, which responsibility shall be borne by the operator exclusively. This tablet may contain materials, including applications and software in executable or source code form, which is submitted by third parties for inclusion in this tablet ("Third Party Materials"). All Third Party Materials in this tablet are provided "as is", without warranty of any kind, whether express or implied. The purchaser undertakes that TCL Communication Ltd. has complied with all quality obligations incumbent upon it as a manufacturer of devices and tablets in complying with Intellectual Property rights. TCL Communication Ltd. will at no stage be responsible for the inability or failure of the Third Party Materials to operate on this tablet or in interaction with any other device.

To the maximum extent permitted by law, TCL Communication Ltd. disclaims all liability for any claims, demands, suits or actions, and more specifically – but not limited to – tort law actions, under any theory of liability, arising out of the use, by whatever means, or attempts to use, such Third Party Materials. Moreover, the present Third Party Materials, which are provided free of charge by TCL Communication Ltd., may be subject to paid updates and upgrades in the future; TCL Communication Ltd. waives any responsibility regarding such additional costs, which shall be borne exclusively by the purchaser. TCL Communication Ltd. shall not be held responsible for the lack of availability of any application, as its availability depends on the country and the operator of the purchaser. TCL Communication Ltd. reserves the right at any time to add or remove Third Party Materials from its tablets without prior notice; in no event shall TCL Communication Ltd. be held responsible by the purchaser for any consequences of such removal.

1 Your device.....

1.1 Keys and connectors

Back button

- Touch to go back to the previous screen, or close a dialog box, options menu, the Notification panel, etc.

Home button

- From any application or screen, touch to return to the Home screen.
- Long press to turn on Google Assistant. You can get help such as getting directions and restaurant information based on the content detected on the screen.

Recent Apps button

- Touch to view applications you've recently accessed.

Power key

- Press: Lock the screen/Light up the screen.
- Press and hold: Show the popup menu to select from **Restart/Power off/Aeroplane mode**
- Press and hold the **Power** key and **Volume down** key to take a screenshot.
- Press and hold the **Power** key for at least 10 seconds to force reboot.

Volume keys

- Adjust the call volume during a phone call.
- Adjust the media volume while listening to music or a video, or streaming content.
- Adjusts the ringtone volume.
- Mutes the ringtone of an incoming call.

- While using the **Camera** app, press **Volume up** or **down** key to take a photo or touch and hold to take several photos.

1.2 Getting started

1.2.1 Setting up

Insert or remove your SIM card or microSD card.

Your tablet only supports nano-SIM cards. Do not attempt to insert other SIM types like mini and micro cards; otherwise this may cause damage to your device.

Charging the battery

You are advised to fully charge the battery (🔋). Charging status is indicated by a percentage displayed on screen. The percentage increases as the tablet is charged.

To reduce power consumption and energy waste when the battery is fully charged, disconnect your charger from the plug; switch off Wi-Fi, GPS, Bluetooth or background-running applications when not in use; reduce the backlight time, etc.

1.2.2 Powering on your tablet

Hold down the **Power** key until the tablet powers on, unlock your tablet (Swipe, PIN, Password or Pattern) if necessary and confirm. The Home screen is displayed.

If you do not know your PIN code or forget it, contact your network operator. Be sure to keep your PIN code safe.

1.2.3 Powering off your tablet

Press and hold the **Power** key until options appear, then select **Power off**.

1.3 Home screen

You can bring all the items (applications, shortcuts, folders and widgets) you love or use most frequently to your Home screen for quick access. Touch the **Home** button to switch to the Home screen.

1 Status bar

- Status/Notification indicators
- Swipe down to open the Notification panel.

4 Google Search bar

- Touch 2 to enter text search screen
- Touch 3 to enter voice search screen

5 Favorite tray applications

- Enter the application.
- Long press to move or remove applications.

Auto-rotate screen

From the app list, touch **Settings** > **Display** > **Auto-rotate screen** to enable the function.

1.3.1 Using the touchscreen

Touch 

To access an application, touch it with your finger.

Long press 

To enter the available options for an item, long press the item. For example, select a contact in Contacts, long press this contact, an option list will appear.

Drag 

Long press an item and drag it to another location.

Slide/Swipe 

Slide the screen to scroll up and down the applications, images, and web pages. You can slide the screen horizontally too.

Flick 

Similar to swiping, flicking is a lighter and quicker stroke.

Pinch/Spread

Place two fingers on the screen surface and draw them apart or together to scale an element on the screen.

The tablet also supports one finger zooming in **Camera** and **Gallery**. Double touch the screen to zoom in/out.

Rotate

Automatically change the screen orientation from portrait to landscape by turning the tablet sideways to have a better screen view.

1.3.2 Status bar

From the Status bar, you can view both tablet status (on the right side) and notification information (on the left side).

Swipe down the status bar to view notifications and swipe down again to enter the Quick settings panel. Swipe up to close it.

Notification panel

Swipe down the Status bar to open the Notification panel to read detailed information.

Clear all notifications (ongoing notifications will remain)

Quick Settings panel

Swipe down the Status bar twice to access the Quick Settings panel where you can enable or disable functions or change modes by tapping the icons

Open **Settings**, to view the full list of settings.

1.3.3 Locking and unlocking your screen

To protect your tablet and privacy, you can lock the tablet with a pattern, PIN, or password, etc.

To create a screen unlock pattern

- From the Home screen, touch **Settings** > **Security** > **Screen lock**.
- Set your own pattern.

To lock tablet screen

If your tablet remains inactive for a period of time, it will automatically lock the screen and enter sleep mode to save power. Go to **Settings** > **Display** > **Sleep** and select a screen timeout period. You can also manually lock the screen by pressing the Power key once.

To unlock the tablet screen

Press the **Power** key once to light up the screen, swipe up and unlock the screen with the method you have set.

If you have chosen **Swipe** as the screen lock, you can press the **Power** key to light up the screen, then swipe up to unlock the screen.

Swipe up to unlock the screen

1.3.4 Personalising your Home screen

Add

You can long press a folder, an application or a widget and drag the item to your preferred Home screen.

Reposition

Long press an item and drag it to the desired position and then release. You can move items both on the Home screen and the Favourite tray. Hold the icon on the left or right edge of the screen to drag the item to another Home screen.

Remove

Long press an item and drag it up to the top of the **Remove** icon, then release.

Create folders

To improve the organisation of shortcuts or applications on the Home screen and the Favourite tray, you can add them to a folder by stacking one item on top of another. To rename a folder, open it and touch the folder's title bar to input the new name.

Wallpaper customisation

Long press an empty area on the Home screen, then touch **Wallpapers** to customise wallpaper.

1.3.5 Widgets and recently used applications

Consult widgets

Long press the empty area on the Home screen, then touch **Widgets** to display all widgets.

Touch the selected widget and slide it to move to your preferred screen.

Consult recently used applications

To consult recently used applications, touch the **Recent Apps** button . Touch a thumbnail in the window to open the application.

Touch one thumbnail and slide it up to close an application.

Touch **Clear all** at the bottom of the screen to close all the running applications.

1.3.6 Volume adjustment

Using the volume key

Press the **Volume** key to adjust the volume. To activate the silent mode, press the **Volume down** key until the tablet is silent.

Using the settings menu

From the Home screen, touch **Settings > Sound** to set the volume for media, ringtones, alarms, etc.

2 Text input.....

2.1 Using the onscreen keyboard

Onscreen keyboard settings

Go to **Settings > System > Languages & input > Virtual keyboard**, touch the keyboard you want to set up and a series of settings will become available.

Adjust the onscreen keyboard orientation

Turn the tablet sideways or upright to adjust the onscreen keyboard orientation. You can adjust it by changing the settings (**Touch Settings > Display > Auto-rotate screen**).

2.1.1 Gboard

- 1 Enter text or numbers.
- 2 Long press to select symbols.
- 3 Switch between "abc/Abc" mode; Press twice quickly to switch to "ABC" mode always.
- 4 Switch between symbol and numeric keyboard.

2.2 Text editing

You can edit the texts which you have entered.

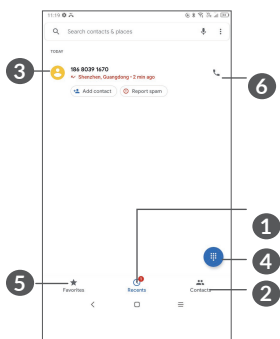

- Long press or double tap within the texts you want to edit.
- Drag the tabs to change the selected texts.
- The following options will appear: **Cut**, **Copy**, **Share** and **Select all**.
- If you have previously cut or copied any text, touch the tab to show **Paste** which allows you then paste the text at the current location.

3 Phone, Call logs and Contacts

3.1 Phone

3.1.1 Making a call

To make a call, touch  in the Favourites tray.

- 1 Call log
- 2 Contacts
- 3 View the contact's detailed information. You can also edit, delete, share the contact, or send a message to the contact.

- 4 Show the dial pad
- 5 Favourites
- 6 Call the previewed number.

Enter the desired number from the dial pad and touch  to place the call, or select a contact from **Contacts** or **Call logs** by sliding or touching tabs and then touch  to make the call.

The number you entered can be saved to **Contacts** by touching the **Create new contact** icon  or the **Add to a contact** icon .

If you make a mistake, you can delete the incorrect digits by touching .

To hang up a call, touch .

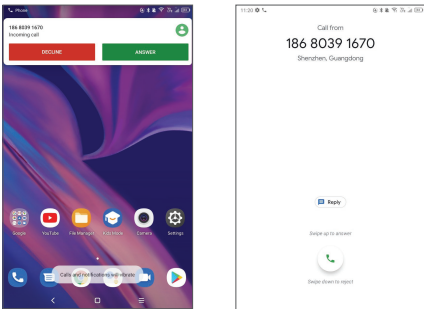

International call

To dial an international call, long press 0 to enter “+”, then enter the international country prefix followed by the full phone number and touch .

Emergency call

If your tablet has network coverage, dial the emergency number and touch  to make an emergency call. This works even without a SIM card and without typing the PIN code.

3.1.2 Answering or rejecting a call

When you receive a call, a call window will be presented on top of the screen. Touch **DECLINE** to dismiss a call or **ANSWER** to answer a call. Touch the call window to open the phone call screen.

On the phone call screen:

- Swipe  up to answer the call;
- Swipe  down to reject the call;
- Touch  to reject the call by sending a preset message.

3.1.3 Calling your voicemail

Your voicemail is provided by your network to avoid missing calls. It works like an answering machine that you can consult at any time.

To access your voicemail, long press 1.

If you receive a voicemail,  appears on the Status bar. Open the Notification panel and touch **New voicemail**.

3.1.4 During a call

To adjust the volume during a call, press the **Volume** key.

-  End the current call.
-  Touch to add another call.
-  Display the dial pad.
-  Touch to hold the current call.
-  Touch to open the speaker.
-  Touch once to mute the current call. Touch this icon again to unmute the call.

3.1.5 Managing multiple calls

With this tablet you can handle multiple calls at the same time.

Swap calls

When you accept two calls, touch  to switch between two lines. The current call will be put on hold.

Conference calls ⁽¹⁾

You can set up a conference call as follows.

- Place a call to the first participant of the conference call.
- Touch  to add another call.
- Enter the phone number of the person you want to add to conference and touch . You can also add participants from **Call log** or **Contacts**.
- Touch  to start the conference.
- Touch  to end the conference call and disconnect all callers.

The Photos provide a multi-select function, so that you can work with pictures/videos in batches.

On **Photos** screen, long press a picture or video to activate batch operation mode, then touch videos/pictures you want to work with. Touch  to delete selected files. Touch  to share selected files.

Working with pictures

Find the picture you want to work on, and touch the picture to enter the full-screen picture view.

Touch  to share the picture.

Touch  to delete this picture.

Touch  select **Use as** to set the picture as Contact photo or Wallpaper.

Tap  to edit the picture or video.

Tap  to get picture's detail information.

7 Others.....

7.1 Support Centre

Support Centre helps you to learn more about Hot FAQs, operation instructions, troubleshooting, etc. You can also feedback your comments to us through it.

7.2 Other applications ⁽¹⁾

The previous applications in this section are preinstalled on your tablet. To read a brief introduction of the preinstalled 3rd party applications, refer to the leaflet provided with the tablet. To download and install more 3rd party applications, use the Google Play Store application.

8 Google applications.....

Google apps are preinstalled on your tablet to improve work efficiency and help you enjoy life.

This manual briefly introduces the apps. For detailed features and user guides, refer to related websites or the introduction provided in the apps.

You are recommended to register with a Google account to enjoy full functionality.

8.1 Chrome

A web browser with which you can surf the internet.

Your bookmarks, browsing history, and settings across all devices on which the browser is installed can be synchronised with your Google account.

8.2 Gmail

As Google's web-based email service, Gmail is configured when you first set up your tablet. With this application, you can send and receive emails, manage emails by labels, archive emails, etc. Emails can be automatically synchronised with your Gmail account.

⁽¹⁾ Application availability depends on country and operator.

8.3 Maps

Google Maps offers satellite imagery, street maps, 360° panoramic views of streets, real-time traffic conditions, and route planning for traveling by foot, car, or public transportation. By using this application, you can get your own location, search for a place, and get suggested route planning for your trips.

8.4 YouTube

YouTube is an online video-sharing application where users can upload, view, and share videos. Available content includes video clips, TV clips, music videos, and other content such as video blogging, short original videos, and educational videos. It supports a streaming function that allows you to start watching videos almost as soon as they begin downloading from the internet.

8.5 Play Store

Serves as the official app store for the Android operating system, allowing users to browse and download applications and games. Applications are either free of charge or at a cost.

In Play Store, search for the app you need, download it and then follow the installation guide to install the app. You can also uninstall, update an app, and manage your downloads.

8.6 Duo

A video chat mobile app. With phone numbers verified, users can easily video call people from their contact list.

9 Settings.....

To go to Settings, swipe up from the Home screen and touch **Settings**.

You can also swipe down from the notification panel and touch .

9.1 Network & Internet

9.1.1 Wi-Fi

You can connect to the internet when your tablet is within range of a wireless network. Wi-Fi can be used on your tablet even without a SIM card inserted.

To turn Wi-Fi on and connect to a wireless network

- Touch **Settings > Network & Internet > Wi-Fi**.
- Turn on .
- Once Wi-Fi is turned on, detected Wi-Fi networks are listed.
- Touch a Wi-Fi network to connect to it. If the network you selected is secured, you are required to enter a password or other credentials (you should contact the network operator for details). When finished, touch **CONNECT**.

To add a Wi-Fi network

When Wi-Fi is on, you can add new Wi-Fi networks according to your preference.

- Touch **Settings > Network & Internet > Wi-Fi**.
- Touch **Add network**.
- Enter the name of the network and any required network information.
- Touch **SAVE**.

To forget a Wi-Fi network

The following steps prevent automatic connections to networks which you no longer wish to use.

- Turn on Wi-Fi, if it's not already on.
- On the Wi-Fi screen, touch the name of the saved network.
- Touch **FORGET** in the dialog that opens.

9.1.2 Mobile network

Go to **Settings > Network & internet > Mobile network** to enable data roaming, set your preferred network type, check the network connection you are using or create a new access point, etc.

9.1.3 Data usage

The first time you turn on your tablet with your SIM card inserted, it will automatically configure your network service: GPRS, GSM, 3G or 4G. If the network is not connected, you can turn on mobile data in **Settings > Network & internet > Data usage**.

Data saver

By enabling Data saver, you can reduce data usage by preventing some apps from sending or receiving data in the background.

Mobile data

If you do not need to transmit data on mobile networks, turn off **Mobile data** to avoid incurring significant charges for data use on local operator mobile networks, particularly if you do not have a mobile data agreement.

Data usage is measured by your tablet, and your operator may count differently.

9.1.4 Hotspot & tethering

To share your phone's data connection via USB and Bluetooth, or as a mobile hotspot, go to **Settings > Network & Internet > Hotspot & tethering** to activate these functions.

9.1.5 VPN

Virtual private networks (VPNs) allow you to connect to the resources inside a secured local network from outside that network. VPNs are commonly deployed by corporations, schools, and other institutions so that their users can access local network resources when not inside that network, or when connected to a wireless network.

To add a VPN

- Touch **Settings > Network & Internet > VPN** and then touch **+**.
- On the screen that opens, follow your network administrator's instructions to configure each component of the VPN settings.
- Touch **SAVE**.

The VPN is added to the list on the VPN settings screen.

Before adding a VPN, you should set a screen lock for your tablet.

To connect/disconnect to/from VPN

To connect to a VPN:

- Touch **Settings > Network & Internet > VPN**.
- The VPNs you have added are listed. Touch the VPN you want to connect with.

- In the dialog that opens, enter any requested credentials and touch **CONNECT**.

To disconnect from a VPN:

- Touch the VPN you want to disconnect from. In the dialog that opens, touch **DISCONNECT**.

To edit/delete a VPN

To edit a VPN:

- Touch **Settings** > **Network & Internet** > **VPN**.
- The VPNs you have added are listed. Touch the  icon next to the VPN you want to edit.
- After editing, touch **SAVE**.

To delete a VPN:

- Touch the  icon next to the selected VPN, then touch **FORGET** to delete it.

9.1.6 Aeroplane mode

Turn on **Aeroplane mode**  to simultaneously disable all wireless connections including Wi-Fi, Bluetooth and more.

9.1.7 Private DNS

Touch to select private DNS mode.

9.2 Bluetooth & device connection

9.2.1 Bluetooth

Bluetooth is a short-range wireless communication technology that you can use to exchange data, or connect to other Bluetooth devices for various uses.

To turn on Bluetooth

- Touch **Settings** > **Bluetooth & device connection** > **Bluetooth**.
- Turn on **Bluetooth** .

Your device name and other available devices will appear on screen.

To rename your device

- Touch **Settings** > **Bluetooth & device connection** > **Bluetooth**.
- Touch **Device name**.
- Enter a name, and touch **RENAME** to confirm.

To pair/connect your tablet with a Bluetooth device

To exchange data with another device, you need to turn Bluetooth on and pair your tablet with the Bluetooth device with which you want to exchange data.

- Touch **Settings** > **Bluetooth & device connection** > **Bluetooth**.

- Touch + **Pair new device**.
- Touch a Bluetooth device you want to pair your tablet with in the list.
- In the dialog that pops up, touch **PAIR** to confirm.
- If the pairing is successful, your tablet will be connected to the device.

To unpair from a Bluetooth device

- Touch  beside the device you want to unpair from.
- Touch **FORGET** to confirm.

9.2.2 Cast

This function can transmit your tablet content to TV or other device capable of supporting video over Wi-Fi connection.

- Touch **Settings > Bluetooth & device connection > Cast**.
- Touch the device name you want to connect.

Note: your device need to connect Wi-Fi network first before using this function.

9.2.3 USB

With the USB cable, you can transfer media files and other files between your internal storage and a computer. Touch **Settings > Bluetooth & device connection > USB**. Select **Transfer files** or **Transfer photos (PTP)**

9.2.4 Printing

Touch Printing to activate Print services. You can select your Default print service or choose Add service.

9.3 Display

In this menu, you can adjust your screen brightness, wallpaper, sleep time, font size, etc.

To rotate screen contents when device is rotated, touch **Auto-rotate screen**.

9.4 Home screen & wallpapers

In this menu, you can manage your home screen, change wallpaper, customize home display setting, show or not show notification on lock screen and etc.

You can also turn on/off Daily Board, when this feature is turned on, charging device can launch daily board showing clock, weather, news calendar and google assistant.

9.5 Sound

Touch to adjust call and notification ringtones, music, and other audio settings.

9.6 Advanced features

In this menu, you can set gestures for quick and convenient operations.

9.7 Smart Manager

Smart Manager ensures your tablet is operating in top form by automatically scanning and optimising data usage to preserve battery levels, manage storage and protect against security threats. You can also do some manual settings for further optimisation

9.8 Security

- **Screen lock**

Screen lock Select one method such as **Swipe**, **Pattern**, **PIN**, or **Password** to unlock the screen.

- **Smart Lock**

Smart Lock keeps your device unlocked when it's safe with you and locked when it detects that it's been put down.

- **Others**

You can also set Device administrations, SIM card lock, Screen pinning, etc. in **Settings > Security**.

9.9 Location

Tap to set whether to allow an app to access your device's location. You can set allowing continual access, or only while the app is in use.

9.10 Privacy

To protect your privacy, you can set an app to be allowed or forbidden to access your location, SMS, phone, etc. Also whether or not to show passwords or choose the activities and info that you want to Google to save.

9.11 Apps

Touch to view details about the applications installed on your tablet, to manage their data usage or force them to stop.

In the **App Permissions** menu of an application, you can grant permissions for the app, such as allowing the app to access your **Camera**, **Contacts**, **Location**, etc.

9.12 Storage

Use these settings to monitor the total and available space on your tablet and microSD card.

9.13 Accounts

Touch to add, remove, and manage your email and other supported accounts. You can also use these settings to control how and whether all applications send, receive, and synchronise data on their own schedules, and whether all applications can synchronise user data automatically.

Touch **Add account** to add an account for the selected app.

9.14 Digital Wellbeing & parental controls

In this menu you can find how much time you have spent on the tablet and even on each app. You can customise the time limit for using the tablet so that have a healthy and balanced life. In addition, parents are able to restrict their children's usage time to manage their browsing habits.

9.15 Google

Touch to configure your Google account and services settings.

9.16 Accessibility

Use the Accessibility settings to configure any accessibility plug-ins you have installed on your tablet.

9.17 System

9.17.1 About tablet

This contains information such as IMEI, SIM Status, Legal information, Model number, Kernel version, Build number, etc.

9.17.2 Languages & input

Touch to configure language settings, the on-screen keyboard, voice input settings, pointer speed, etc.

9.17.3 Date & time

Use Date & time settings to customise your preferences for how date and time are displayed.

9.17.4 Back up

Turn on  to back up your tablet's settings and other application data to Google servers. If you replace your tablet, the settings and data you've backed up will be restored onto the new device when you sign in with your Google account.

9.17.5 Reset

Touch to reset DRM, Wi-Fi, mobile & Bluetooth, Reset app preferences , or Erase all data.

9.17.6 Regulatory & safety

Touch to view product information.

10 Making the most of your tablet

10.1 FOTA Upgrade

Use the FOTA (Firmware Over The Air) Upgrade tool to update your tablet's software. To access **Updates**, from the app list, touch **Settings > System > System Update**.

If you want to update the system, touch **CHECK FOR UPDATES** and when that's finished, your tablet will have the latest version of the software.

During FOTA downloading or updating, to avoid errors in locating the correct update packages, do not change your default storage location.

11 Accessories

Standard accessories

1. Charger
2. USB Cable
3. Quick Start Guide
3. Product safety information leaflet
4. LCD sticker

- Accessories depend on countries.
- Only use the alcatel batteries, chargers, and accessories included along with your device.

12 Warranty

Your tablet is warranted against any defect or malfunctioning which may occur in conditions of normal use during the warranty period of twelve (12) months ⁽¹⁾ from the date of purchase as shown on your original invoice.

Batteries ⁽²⁾ and accessories sold with your tablet are also warranted against any defect which may occur during the first six (6) months ⁽¹⁾ from the date of purchase as shown on your original invoice.

In case of any defect of your tablet which prevents you from normal use thereof, you must immediately inform your vendor and present your tablet with your proof of purchase.

If the defect is confirmed, your tablet or part thereof will be either replaced or repaired, as appropriate. Repaired tablet and accessories are entitled to a one (1) month

⁽¹⁾ The warranty period may vary depending on your country.

⁽²⁾ The life of a rechargeable tablet battery in terms of conversation time, standby time and total service life, will depend on the conditions of use and network configuration. Batteries being considered expendable supplies, the specifications state that you should obtain optimal performance for your tablet during the first six months after purchase and for approximately 200 more recharges.

warranty for the same defect. Repair or replacement may be carried out using reconditioned components offering equivalent functionality.

This warranty covers the cost of parts and labor but excludes any other costs.

This warranty shall not apply to defects to your tablet and/or accessory due to (without any limitation):

- Non-compliance with the instructions for use or installation, or with technical and safety standards applicable in the geographical area where your tablet is used;
- Connection to any equipment not supplied or not recommended by TCL Communication Ltd.;
- Modification or repair performed by individuals not authorised by TCL Communication Ltd. or its affiliates or your vendor;
- Modification, adjustment or alteration of software or hardware performed by individuals not authorised by TCL Communication Ltd.;
- Inclement weather, lightning, fire, humidity, infiltration of liquids or foods, chemical products, download of files, crash, high voltage, corrosion, oxidation...

Your tablet will not be repaired in cases where labels or serial numbers (IMEI) have been removed or altered.

There are no express warranties, whether written, oral or implied, other than this printed limited warranty or

the mandatory warranty provided by your country or jurisdiction.

In no event shall TCL Communication Ltd. or any of its affiliates be liable for indirect, incidental or consequential damages of any nature whatsoever, including but not limited to commercial or financial loss or damage, loss of data or loss of image to the full extent those damages can be disclaimed by law.

Some countries/states do not allow the exclusion or limitation of indirect, incidental or consequential damages, or limitation of the duration of implied warranties, so the preceding limitations or exclusions may not apply to you.

13 Troubleshooting.....

Before contacting the service center, here are some instructions to help you troubleshoot your device:

- For optimal operation, fully charge the battery.
- To improve the tablet's performance, remove unnecessary files or apps on your tablet.
- Update your tablet's software, go to **Settings > System > System Update**.
- Reset your tablet via **Erase all data (factory reset)**. Touch **Settings > System > Reset > Factory data reset**. Another method is to hold down the **Power** key and the **Volume up** key at the same time when your tablet is powered off. All your tablet data will be lost permanently. It is strongly advised to fully back up your tablet data before resetting.

and carry out the following checks:

My tablet can't be switched on or is frozen

- When the tablet can't be switched on, charge for at least 20 minutes to ensure the minimum battery power needed. Then switch it on again.

- When the tablet falls into a loop during power on animation and the user interface can't be accessed, press and hold the **Power** key to reset. This eliminates any abnormal OS booting issues caused by third party applications.
- If neither method is effective, reset the tablet by pressing the Power key and the Volume up key at the same time, selecting a language, and then selecting **Wipe data/Factory reset**. Press the **Volume** key to select, and press the **Power** key to confirm each selection.

My tablet has not responded for several minutes

- If your tablet doesn't respond, turn off your tablet by pressing and holding the **Power** key until it turns off and then restart it again.
- If your tablet has a removable battery, remove the battery and reinsert it, then restart the tablet.
- If it still doesn't work, reset the tablet.

My tablet turns off by itself

- Check that your screen is locked when you are not using your tablet, and make sure that the **Power** key is not accidentally pressed while the screen is unlocked.
- Check the battery charge level.
- If it still doesn't work, reset the tablet or update software.

My tablet can't charge properly

- Make sure that you are using the **Alcatel** charger that comes with the tablet.
- If your tablet has a removable battery, make sure that your battery is inserted properly and clean the battery contact if it's dirty. It must be inserted before plugging in the charger.
- Make sure that your battery is not completely discharged; if the battery power has been empty for a long time, it may take around 20 minutes to display the battery charging indicator on the screen.
- Make sure that charging is carried out under normal conditions (0°C (32°F) to 40°C (104°F)).
- When abroad, check that the voltage input is compatible.

My tablet can't connect to a network or "No service" is displayed

- Try connecting to the network by moving to another physical location.
- Verify the network coverage with your operator.
- Check with your operator that your SIM card is valid.
- Try connecting at a later time if the network is overloaded.

My tablet can't connect to the internet

- Make sure that the internet access service of your SIM card is available.
- Check your tablet's internet connection settings.
- Make sure that you are in a place with network coverage.
- Try connecting at a later time or another location.

Invalid SIM card

- Make sure that the SIM card has been correctly inserted.
- Make sure that the chip on your SIM card is not damaged.
- Make sure that the service of your SIM card is available.

My tablet can't make outgoing calls

- Make sure that you have dialled a valid number and have touched **Call**.
- For international calls, check the country and area codes.
- Make sure that your tablet is connected to a network, and the network is not overloaded or unavailable.
- Check your subscription status with your operator (credit, SIM card valid, etc.).
- Make sure that you have not barred outgoing calls.
- Make sure that your tablet is not in aeroplane mode.

My tablet can't receive incoming calls

- Make sure that your tablet is switched on and connected to a network (check for overloaded or unavailable network).
- Check your subscription status with your operator (credit, SIM card valid, etc.).
- Make sure that you have not forwarded incoming calls.
- Make sure that you have not barred certain calls.
- Make sure that your tablet is not in aeroplane mode.

The caller's name/number doesn't appear when a call is received

- Check that you have subscribed to this service with your operator.
- Your caller may have concealed his name or number.

I can't find my contacts

- Make sure that your SIM card is not broken.
- Make sure that your SIM card is inserted properly.
- Import all contacts stored in SIM card to tablet.

The sound quality of the calls is poor

- Adjust the volume during a call by pressing the **Volume** key.
- Check the network strength. Move to a location with stronger signal strength.

- Make sure that the receiver, connector and speaker on your tablet are clean.

I can't use the features described in the manual

- Check with your operator to make sure that your subscription includes this service.
- Make sure that this feature doesn't require an Alcatel accessory.

When I select a number from my contacts, the number can't be dialled

- Make sure that you have correctly recorded the number in your file.
- Make sure that you have selected the country code when calling an international number.

I can't add a contact

- Make sure that your SIM card contacts are not full; delete some files or save the files to the tablet.

My callers can't leave messages on my voicemail

- Contact your network operator to check service availability.

I can't access my voicemail

- Make sure that your operator's voicemail number is correctly entered in "Voicemail number".
- Try later if the network is busy.

I can't send and receive MMS

- Check your tablet storage as it might be full.

- Contact your network operator to check service availability and MMS parameters.
- Verify the server centre number or your MMS profile with your operator.

- The server centre may be swamped. Try again later.

SIM card PIN locked

- Contact your network operator to obtain the PUK (Personal Unblocking Key) code.

I can't connect my tablet to my computer

- Check to make sure the USB port is not broken. If it's not working, try another USB port on your computer.
- Make sure USB drivers are properly installed.
- If you are using a Windows computer, make sure it supports MTP mode. If you are using a Mac, make sure to install Android File Transfer from www.android.com/filetransfer/.

I can't download new files

- Make sure that there is sufficient tablet storage space for your download.
- Select the microSD card as the location to store downloaded files.
- Check your subscription status with your operator.

The tablet can't be detected by others via Bluetooth

- Make sure that Bluetooth is turned on and your tablet is visible to other users.

- Make sure that the two tablets are within Bluetooth's detection range.

The battery drains too fast

- Make sure that you follow the complete charge time (minimum 231 minutes).
- After a partial charge, the battery level indicator may not be exact. Wait for at least 20 minutes after removing the charger to obtain an exact indication.
- Adjust the brightness of screen as appropriate.
- Extend the email auto-check interval for as long as possible.
- Update news and weather information on manual demand, or increase their auto-check interval.
- Exit background-running applications if they are not being used for extended periods of time.
- Turn off Bluetooth, Wi-Fi, or GPS when not in use.

The tablet becomes warm following prolonged calls, game playing, internet surfing or running other complex applications

- This heating is a normal consequence of the CPU handling excessive data. Ending the above actions will make your tablet return to normal temperature.

After a factory data reset is performed, I can't use my tablet without entering Google account credentials

- After a reset is performed, you must enter the original Google account credentials that were used on this tablet.
- If you don't remember your Google account credentials, complete Google account recovery procedures.
- If you still cannot access your tablet, apply to the authorised repair centre, but remember that it will not be regarded as warranty case.

I forget some passwords/codes/keys on tablet

- Perform a factory data reset.
- If you still cannot access your tablet, apply to the authorised repair centre, but remember that it will not be regarded as a warranty case.
